## EV-AV2 Base Installation instructions

1. Fix base plate to ceiling using $2 \times$ screws through the slots provided. NOTE: Base Sounder should not be Wall mounted.
2. Connect loop wires to each terminal as shown below. (Ensure that excess wire is pushed back through the centre aperture as this may restrict assembly)

3. Program device address using hand held programmer and adaptor EV-AVADAPT (F05N83235) or flying leads BEFORE attaching to base plate.
4. Locate and clip on EV-AV2 Base product.
(Push down in off-set position and slide across until it clicks into place)

To release, push Release Tool into holes in rim of sounder unit and slide the product in the reverse direction.
